Contents of Volume 11

No. 1

High production of alkaline protease by *Bacillus licheniformis* in a fed-batch fermentation using a synthetic medium 1
W. Mao, R. Pan and D. Freedman (USA, China)

Improved processes for the production and isolation of dynemicin A and large-scale fermentation in a 10000-liter fermentor 7
K.S. Lam, J.A. Titus, T.T. Dabrah, D.L. Kimball, J.M. Veitch, D.R. Gustavson, B.J. Compton, J.A. Matson, S. Forenza, J. Ross, D. Miller, J. Roach and J. Beutler (USA)

Isolation, structure determination and biological activity of A-16686 factors A′1, A′2 and A′3 glycolipodepsipeptide antibiotics 13
L. Gastaldo, R. Ciabatti, F. Assi, E. Restelli, J.K. Kettenring, L.F. Zerilli, G. Romanò, M. Denaro and B. Cavallero (Italy)

Localization of volatile acidity reducing factors in grape 19
C. Delfini, E. Pessione, E.G. Moruno and C. Giunta (Italy)

Enhanced production of D(−)-lactic acid by mutants of *Lactobacillus delbrueckii* ATCC 9649 23
A. Demirci and A.L. Pometto III (USA)

Production of chiral epoxides by an ethene-utilising *Micrococcus* sp. 29
M. Mahmoudian and A. Michael (UK)

Inactivation of *Salmonella enteritidis* on shell eggs by novel *N*-halamine biocidal compounds 37
B.S. Worley, W.B. Wheatley, S.D. Lauten, D.E. Williams, E.C. Mora and S.D. Worley (USA)

A new strain of *Rhodotorula rubra* isolated from yogurt 43
R.P.K. Hari, T. Patel and A. Martin (Canada)

Evaluation of a microbial method to reduce hydrogen sulfide levels in a porous rock biofilm 53
M.J. McInerney, V.K. Bhupathiraju and K.L. Sublette (USA)

Short Communication
Apparent cellulase activity of purified xylanase is due to contamination of assay substrate with xylan 59
J.C. Royer, J.S. Novak and J.P. Nakas (USA)

Announcement from the Publisher 62

No. 2

Adsorption of a hydrophobic bacterium onto hematite: implications in the froth flotation of the mineral 63
R.W. Smith, M. Misra and S. Chen (USA)

Screening and encapsulated microbial cells for the degradation of inorganic cyanides 69
K.D. Chapatwala, G.R.V. Babu and J.H. Wolfram (USA)

Screening of microbial esterases for asymmetric hydrolysis of 2-ethylhexyl butyrate 73
C.T. Hou (USA)

Production of a fungal protein, Taka-amylase A, by protein-producing *Bacillus brevis* HPD31 83
S. Ebisu, M. Mori, H. Takagi, K. Kadowaki, H. Yamagata, N. Tsukagoshi and S. Udaka (Japan)

Screening and selection of a microbial lipase for the stereospecific hydrolysis of Verlukast 89
L. Katz, C. Marcin, L. Zitano, J. King, K. Price, N. Grinberg, M. Bhupathy, J. McNamara, J. Bergan, R. Greasham and M. Chartrain (USA)

Improvement in the titer of echinocandin-type antibiotics: a magnesium-limited medium supporting the biphasic production of pneumocandins A_0 and B_0 95
J.S. Tkacz, R.A. Giacobbe and R.L. Monaghan (USA)

Inhibitory effect of dihydroxyacetone on *Gluconobacter oxydans*: Kinetic aspects and expression by mathematical equations 105
C. Claret, A. Bories and P. Soucaille (France)

Alterations in fatty acid composition and trehalose concentration of *Saccharomyces* brewing strains in response to heat and ethanol shock 113
J.A. Odumeru, T. D'Amore, I. Russell and G.G. Stewart (Canada)

Response surface methods for optimizing *Saccharopolyspora spinosa*, a novel macrolide producer 121
R.J. Strobel, Jr. and W.M. Nakatsukasa (USA)

Announcement from the Publisher 129

No. 3

Publisher's Announcement iii

Pan Award
Microbial diversity as a source of useful biopolymers 131
E. Rosenberg (Israel)

Original Papers
Partial characterization of *Aspergillus fumigatus* polygalacturonases for the degumming of natural fibers 139
M.C. Baracat-Pereira, M.C. Dantas Vanetti, E. Fernandes de Araujo and D.O. Silva (Brazil)

Repression of galactose utilization by glucose in the citrate-producing yeast *Candida guilliermondii* 143
N.A. Gutierrez, I.A. McKay, C.E. French, J.D. Brooks and I.S. Maddox (New Zealand)

Biotransformation of furfural and 5-hydroxymethyl furfural by enteric bacteria 147
R. Boopathy, H. Bokang and L. Daniels (USA)

Genetic engineering of soft-rot bacteria for ethanol production from lignocellulose 151
D.S. Beall and L.O. Ingram (USA)

Study of physicochemical factors limiting the growth of *Kluyveromyces marxianus* 157
D. Vivier, R. Ratomahenina, G. Moulin and P. Galzy (France)

Evaluation of microbial surfactants for recovery of hydrophobic pollutants from soil 163
M.I. Van Dyke, S.L. Gulley, H. Lee and J.T. Trevors (Canada)

Biochemical characteristics of two endo-β-1,4-xylanases produced by *Penicillium capsulatum* 171
E.X.F. Filho, J. Puls and M.P. Coughlan (Germany)

Detection of siderophores in growing cultures of *Pseudomonas* spp. 181
L. Raaska, L. Viikari and T. Mattila-Sandholm (Finland)

Clarification of microbial polysaccharides with enzymes secreted from *Lysobacter* species 187
T.J. Pollock and M. Yamazaki (USA)

Transformable mutants of a biopesticide strain *Streptomyces griseoviridis* K61 193
J. Holmalahti, O. Raatikainen and A. von Wright (Finland)

The high maltose-forming α-amylase of *Saccharomonospora viridis*: mechanisms of action 199
W.M. Fogarty, B.S. Collins, E.M. Doyle and C.T. Kelly (Ireland)

No. 4

Publisher's Announcement v

Introduction
Environmental assessment of recombinant DNA fermentations 205
J.F. Kane (USA)

Regulatory issues
Comparative analysis of current US and EC biosafety regulations and their impact on the industry 209
J. Van Houten and D.O. Fleming (USA)

Relationship between safety data and biocontainment design in the environmental assessment of fermentation organisms – An FDA perspective 217
R.A. Jones and J.C. Matheson (USA)

Biocontainment design issues
Biocontainment design considerations for biopharmaceutical facilities 223
S.R. Miller and D. Bergmann (USA)

Environmental fate issues: in vitro studies
Potential for gene transfer from recombinant *Escherichia coli* K-12 used in bovine somatotropin production to indigenous bacteria in river water 235
G. Bogosian, P.J.L. Morris, D.B. Weber and J.F. Kane (USA)

Fate in sewage of a recombinant *Escherichia coli* K-12 strain used in the commercial production of bovine somatotropin 243
M.A. Heitkamp, J.F. Kane, P.J.L. Morris, M. Bianchini, M.D. Hale and G. Bogosian (USA)

Environmental fate issues: in vivo studies
***Escherichia coli* K12 does not colonize the gastrointestinal tract of Fischer-344 rats** 253
W.L. Muth, F.T. Counter, K.K. Richardson and L.F. Fisher (USA)

Absence of persistence and transfer of genetic material by recombinant *Escherichia coli* in conventional, antibiotic-treated mice 259
R.J. Yancey, Jr., S.F. Kotarski, K.K. Thurn, R.A. Lepley and J.E. Mott (USA)
